Philip Morris Incorporated - New patent
application in Mexico - Corresponding to
U.S. Serial No. 263,637 filed March 7, 1963 -
Title of Invention: Process for Selective
Extraction of Alkaloid. Our file 582-421-Mexico

Dear Mr. Hoagland:

In response to your letter of February 29th, we enclose a
power of attorney duly executed by the client and legalized by the
Mexican Consul

Our associate in Washington obtained a certified copy of the
corresponding U.S. case, Serial No. 263,637, and mailed it to you by
air yesterday. Through some inadvertence, however, our associate sent
you two certified copies, and we would ask that you kindly return one
of them as it is needed for filing elsewhere.

We regret the short notice we were obliged to give you in this
instance, however, we believe you now have everything you need in order
to file the case in Mexico prior to the March 7th deadline.

We look forward to receiving three copies of the Spanish trans-
lation of the specification and claims at your earliest convenience.

Please accept our thanks for your cooperation and assistance.

Very truly yours,

Howard K. Kothe

HKK mec

Enclosure: Power of attorney
